

# Which Technology Major is Right for Me?

	<b>EE</b> Electrical Engineering	<b>CE</b> Computer Engineering	<b>CS</b> Computer Science	<b>IT</b> Information Technology	<b>MIS / CIS</b> Management / Computer Information Systems
<b>Math Involved</b>	10/10	9/10	7/10	5/10	3/10
<b>Programming Involved</b>	4/10	5/10	10/10	7/10	6/10
<b>Sample Jobs</b>	Signal Processing Power Systems Electromagnetics	Embedded Systems High Performance Computing Wireless Networking	Software Engineer Game programmer Software Developer	Web programming IT Manager Database Administrator	IT Management Intranet Manager
<b>Sample Task</b>	Design the Xbox 720	Improve an embedded processor	Develop an iPhone App	Setup a CRM Database	Track sales through a database

**ETech**  
Engineering Technology

This is a hands on, applied program. Details vary by major

Some schools will define these programs slightly differently. Do not choose your major based on a \$1,000 average salary difference. Study what interests you – if you are good at it, the money will follow.
